

STEWARDS READY TO JOIN SAILORS IN MARINE STRIKE

Petty Officers Also Dissatisfied With Wages and Quarters, Threaten to Quit.

SHORT CREWS WORKING

White Star Line, After Making Concessions, Talks of Tying Up Its Vessels.

So far the net result of the British seamen's strike is a victory for the White Star and Canadian Pacific Lines. The surrender of these companies, however, is not complete. Only half the wage demand has been granted. On the top of it is a threat by the companies to tie up all their boats until the "trouble blows over," as one steamship official said today.

Locally, the situation has not interfered with ocean traffic. No efforts will be made to organize a reserve or strike-breaking force until the strike resolves this side of the Atlantic. Demands made by the American branch of the Sailors and Seamen's Union on the coastwise lines for higher wages and recognition of the American unions have been shelved for the present at least.

When the Cunarder Lusitania docked today a steward voted the dissatisfaction of his mates on the other side. The petty officers, including the stewards, are ready to follow the seamen, the steward stated.

Added to the stewards' grievances of small wages is the "glory hole," where the stewards have the right to "the signal" and predicted that every transatlantic steamship would be tied at her dock within a few days.

STRIKE SPREADING IN MOST EUROPEAN PORTS.

"The surrender of the White Star line to the strikers is explained by the company's anxiety to send the great Olympic across the ocean on her scheduled maiden trip," said an official of that company today. "The concession is just half what the strikers wanted and I am sure the company will resist any further efforts to force the general demand of \$5 advance in wages."

Advices from English ports indicate that the strike is spreading. Many of the ships leaving English ports yesterday called with short crews. The St. Paul of the American line, due to sail last Saturday, will leave Southampton next Wednesday, carrying the mail of the White Star liner Majestic.

Manager Curry of the White Star Line is quoted as stating that as fast as the White Star liners reach English ports each will be laid up until after the trouble is over, despite the increase of wages of \$2.50 a month allowed to the seamen of the Olympic.

The White Star Line's purpose in laying up its boats is designed, it is stated, to paralyze shipping in English ports and thus kill off the strike. With other lines following this example, it is stated, ocean traffic would be halted and the issue forced at once. In this sort of struggle the steamship people say they cannot lose. A desultory warfare with the strikers, it is claimed, is far more hazardous.

The one point in the seamen's demands that will not be acceded to, it is declared, is the request that steamship companies obtain their men from the union headquarters, instead of seeking new sailors from the lodging houses.

SEAMEN SETTLE ON WAGES, THEN HOLD UP LINER

Canadian Pacific Forced to Pay More Than Rate Agreed On—Strike Is Lagging.

LONDON, June 15.—The shipping strike has developed largely into a squabble over wages and outside of a few mail steamers the shipowners generally are not suffering appreciable inconvenience. The number of the strikers is limited strictly to deckhands.

Despite the concession of \$2.50 a month in wages made by the Canadian Pacific Railway Company yesterday, when the time came for the signing of a crew for the Empress of Ireland to-day the company was forced to concede an additional \$1.25. The original demand of the men was for an advance of \$4 a month, but it was announced yesterday that a compromise of one-half that figure had been reached.

AMSTERDAM, Holland, June 15.—The striking seamen at this port total about 300. However, the steamer Rotterdam, belonging to the American Petroleum Company and due to sail this morning, was unable to obtain a crew.

GREAT TRUSTS PAY SMALL TAXES TO STATE OF JERSEY

Standard Oil, with \$81,843,625 Stock Outstanding, Will Settle Only \$7,842.

TRENTON, N. J., June 15.—An analysis of the assessment of the State tax for 1911 against corporations by the State of New Jersey, through its State Assessors, gives a good idea of what New Jersey really is as a corporation parent.

A schedule of assessments filed with the State Comptroller, while only a preliminary one, contains the levy laid against the majority of the larger corporations—some of them the "trusts." This schedule shows the tax against 7,000 corporations. The amount levied is \$2,578,928.12.

One hundred and thirty-nine of these corporations have capital stock issued to the extent of ten million dollars or more each. Twenty-eight of them have capital stock outstanding of more than \$50,000,000 each. Six are in the one hundred million dollar class.

The United States Steel Corporation is, of course, the largest on the list. Its issued capital stock is down as \$488,553,000. Its tax this year will be \$47,179.

Although ordered dissolved by the Federal Government, the Standard Oil Company of New Jersey is still on the list, and according to the returns has issued stock to the amount of \$5,453,625. Its State tax is \$7,842. This small tax is partly due to the fact that the returns show that a large part of the company's capital is invested in manufacturing plants in New Jersey and as a result the stock is exempt from taxation.

The other companies in the \$100,000,000 class are:

- Amalgamated Copper Company, capital \$103,857,000, tax \$11,444.
- American Tobacco, capital \$118,981,500, tax \$9,894.
- International Harvester, capital \$140,000,000, tax \$150.
- International Mercantile Marine, capital \$120,000,000, tax \$9,760.
- Rock Island Company, capital \$160,000,000, tax \$15,260.

Some of the other large companies and their assessed taxes are:

- Central Leather, capital \$75,000,000, tax \$7,450.
- Corn Products Refining, capital \$70,000,000, tax \$7,738.
- Federal Steel, capital \$59,815,500, tax \$5,727.
- National Biscuit, capital \$54,040,500, tax \$5,452.
- National Tube, capital \$40,000,000, tax \$7,760.
- Pittsburgh Coal, capital \$44,000,000, tax \$4,900.
- Republic Iron and Steel, capital \$52,100,000, tax \$4,250.
- United States Rubber, capital \$74,753,000, tax \$7,458.

Hanna Himself in Cellar.

Henry Foth, a cabinet maker, of No. 1133 Taylor avenue, the Bronx, committed suicide last night by hanging himself in the cellar of his home. His body was found early today by his wife, Amelia Foth.

CITY HALL PARK MAN OF MYSTERY REVEALS SECRET

Says His Daily Visits Are a Protest Against an Injustice—Once in an Asylum.

Ernest Philip O'Sullivan of No. 152 West Eighth-street, called today at the office of The Evening World to clear up the mystery of the "Man who stands before the City Hall." The fact of the almost daily appearance of this man on the broad walk in City Hall Park was published last Friday.

Mr. O'Sullivan says that his going to the City Hall is to attract public attention to an injustice done him some years ago, and that his daily appearance is a protest.

"My father was Eugene O'Sullivan, once a prominent coffee merchant at No. 35 Wall street," he said, "while my brother, Percy O'Sullivan, was once president of the Coffee Exchange. My father died, and my brother and myself lost our money. I was born thirty-nine years ago and lived for many years at No. 274 Madison avenue.

"Seven years ago I was forcibly taken from the hotel where I lived and was confined for three years in an asylum for lunatics. The doctors who committed me stated falsely that I was afflicted with delusions of persecution. The immediate cause was my striking a man who insulted me on the street. I was not even permitted to go before the judge who committed me.

"At the asylum I was harassed and weakened by being thrown among rough attendants, violent officers and very insane patients—though the doctors knew and told me that my heart was affected. I was finally discharged as sane. My weakened heart lowers my vitality, numbs my senses, dulls my mind and my whole being and will incapacitate me during the rest of my life for much work or enjoyment."

Mr. O'Sullivan added that he did not want charity, but that he was seeking vindication and recompense through the proper municipal channels. He says that "to deny an honorable man without cause, without accusing him of any crime, of his liberty is contrary to all American principles of fair treatment."

FRECKLES

New Drug That Quickly Removes These Homely Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as a new drug, obtainable through—has been discovered that is a positive cure for these homely spots. It gets out of the system the cause of freckles—then it attacks the spots and in ten minutes you will see that the spots have begun to disappear. The light freckles are removed entirely. It is action on the skin and does not need a complexion cream or any other cosmetic. It is a sure cure for the double strength ointment. It is sold under guarantee of money back if it fails to remove the freckles.

BANKERS TRUST TO BUY CONTROL OF MERCANTILE

Syndicate Negotiating \$10,000,000 Deal as Forerunner of Big Merger.

According to an announcement made today in the financial district, a syndicate composed of financiers now interested in the Bankers' Trust Company will, in the near future, purchase 12,000 shares of Mercantile Trust Company stock now owned by the Equitable Life Assurance Society. The Equitable Life is forced to depart with this stock owing to terms of the State insurance laws passed after the insurance investigation.

The purchase of this big block of Mercantile Trust stock by interests connected with the Bankers' Trust Company will give the latter absolute control of the Mercantile Trust, as there are only 20,000 shares of Mercantile stock. The syndicate will pay \$70 a share for the stock of the Mercantile Trust, which will mean that a sum aggregating about \$10,000,000 is involved in the deal.

Although the parties interested in this deal deny the rumor, it is said in other quarters that the transaction is a forerunner of the consolidation of the Bankers' Trust Company with the Mercantile Trust Company.

The merging of these two downtown institutions would make the most important trust company consolidation since the Morton Trust Company and the Fifth Avenue Trust Company were merged with the Guaranty Trust Company about a year ago.

A merger of the Bankers' Trust Company and the Mercantile Trust would bring about a company with deposits totaling about \$150,000,000.

COMMENCING TOMORROW (SATURDAY), STORE WILL BE CLOSED

SATURDAYS AT NOON; OTHER BUSINESS DAYS AT 5 P. M.

5th Avenue, 34th and 35th Streets, New York.

FLIGHT TO EUROPE IN GREAT AIRSHIP IS AGAIN PLANNED

Engineer Vaniman, of Wellman's Crew, Certain He'll Cross Sea in October.

Melville Vaniman, engineer and second in command of the Wellman balloon expedition of last year, returned today on the Lusitania from London, where he made certain plans for his proposed transatlantic dirigible flight. His backer, he said, is F. S. Stirling, president of the Akron, O., Chamber of Commerce, a wealthy inventor, and, as Mr. Vaniman put it, a "man who will take a chance and spend his money, and with no yellow streak down the spine."

"The silk and rubber bag for our airship is now being built at Akron," went on Mr. Vaniman. "The machine will be assembled at Atlantic City in August, but we will not undertake the flight until October. Power will be furnished by three motors, with a total of 400 horse power, and a donkey engine. I will carry a crew of seven men and I am sure going to take along the cat that went with us on the Wellman trip. I regard her as a mascot. Why, a friend of mine stroked her one day and then came to New York and met and married an heiress to twenty millions. I have had nothing but good luck since I met the Kitty."

"We think we have figured out a balloon that will not go to too great a height. Control will be furnished by a new device of my invention and we will not use the cumbersome two-ton equilibrium which gave us so much trouble on the other flight. The balloon proper will be 28 feet long, with a diameter of 45 feet. It will weigh 4,000 pounds and I have a capacity of 50,000 cubic feet and a carrying capacity of 25,000 tons. I have already had several applications from men who want to be in the crew including three expert wireless operators."

AMERICANS FLIGHT FROM AVANCE OF LONDON SHIPMEN

William Gooch of New York, president of the Blue Gas Company, returned from an extended trip on the Continent. He told of the conditions in London, as a result of the greed of the metropolis account of the increased demand for gas. He said that Americans were avoiding the big city as never before, all because they felt that the shopkeepers and hotelkeepers would fleece them.

"I have never known London to be so bare of Americans," he said. "Actually, it looks deserted, while Paris is crowded. It's all because the prices for everything have risen in the money market since the American millionaires are willing to pay."

"Paris on the other hand is booming and the Parisians are laughing at the Londoners and taking in the money that otherwise would have gone to England. I telegraphed from Florence for rooms at five hotels where I have heretofore stopped in Paris, and in every one of them was filled. I had to search quite a time before I could get accommodations."

Hon. Fox Maule Ramsay, a young Englishman, came over expecting to make New York his headquarters while running back and forth to Canadian and Western hunting grounds. He was very anxious to kill a mouse, but learned that mouse cannot be legally shot at this season, so he said he would try his luck at land-lodged salmon and muskellunge.

William Ramsay, a brother-in-law of Joseph Chamberlain, the English statesman, with Mrs. Endicott, came back from a lengthy vacation in Europe.

NURSES BOY HER AUTO HIT.

Banker Wallace's Wife Struck Wounds of Cyclist on Road.

An automobile in which Mrs. William H. Wallace, whose husband is connected with Dick Brothers & Company, bankers, was riding to her home at Rye, struck a boy on a bicycle to-day on New Rochelle Road, Bronx.

The boy was thrown fifteen feet. Mrs. Wallace's chauffeur, Kasika Ketten, stopped and Mrs. Wallace went to the boy's side and tried to bind up his wounds. Before he became unconscious he said he was Victor Walther of Jerome avenue and One Hundred and Fifty-eighth street. There is no such crossing.

The boy was taken to Poughkeepsie Hospital with a fractured skull and internal injuries. His condition is serious. Notwithstanding the fact that Mrs. Wallace's insistence that the boy suddenly averted in front of the car, the chauffeur was looked up, charged with assault.

BOLD AIR-VOYAGER WHO WILL TRY NEW TRIP OVER ATLANTIC

TELEPHONE MEN WANT LOWER RATE ORDER MODIFIED

Ask Service Board to Postpone Date for Reduction of Tolls and Change Zones.

ALBANY, June 15.—Indicating acceptance of the order made by the Public Service Commission, Second District, reducing interborough telephone rates in the city of New York, the New York Telephone Company today applied to the Commission for a modification of the provisions of the order made June 1. The modifications asked for are:

That the territory known as Zone 1 in the city of New York be that portion of the Borough of Manhattan south of West One Hundred and Tenth street and south of East One Hundred and Third street, instead of "That portion of Manhattan below One Hundred and Tenth street."

That the Borough of Brooklyn, except that portion thereof embraced by the Central station districts, be all known as Bath Beach, Coney Island, East New York, Flatbush and Bay Ridge.

For telephone service between Zone No. 1 and the Borough of Brooklyn to charge to be five cents.

That the order shall apply only to toll messages originating at subscribers' stations, and not to toll messages originating at public pay stations.

That the rates and charges shall not become effective until at least six months from the first day of the month next succeeding, instead of Aug. 1.

The commission will give a hearing on June 23 in New York City.

LEXICONS.

(From the Cleveland Plain Dealer.)

Prof. Garner claims that he is enlarging the monkey lexicon, aided by little Simian Suse, his pet pupil, and a distant cousin of the human race.

Here are a few of Suse's words with their definitions:

"Obey"—want.

"Kiki-lu"—look out.

"Sou-hou"—stampede.

"Kiki-lu-shou"—retreat.

Rather odd, aren't they? And yet can they be considered any more peculiar than such human expressions as these:

"Geel!"

"Huh!"

"Hike!"

"Pimp!"

"Yep."

And really, when you scan 'em over and compare 'em it looks as if we had nothing on the monkeys.

MAN FROM RENO TRIMMED ON LINER BY CARD SHARPS

Sits in a Little Poker Game With Two Strangers, Who Get Away With \$2,500.

Dr. Carl Anderson of Jersey City told on his arrival on the Lusitania today of a card game in which supposed professional made a rich haul. He said that on last Monday night he, with his friends, George Howard of Reno and H. Warwick of England, played poker with two strangers, upon invitation of one of the two.

"I grew suspicious and quit after losing a little," said Dr. Anderson. "Next morning a fellow passenger told me he had seen the strangers playing peculiar and profitable games on another ship, so I went and warned Howard and Warwick, but they were willing to take a chance and they played again that night. The sharps cleaned up \$2,500."

He pointed out the two strangers as they left the ship. Both of them headed for a sporting hotel in the Tenderloin. The Lusitania was so delayed on Tuesday by head seas and high winds that she didn't reach the lights until late last night and didn't dock until after breakfast time.

Human Fat Reduces Easily in this Climate

Now is the time above all others when you should be thinking of removing that dragging down false flesh. It is very simple if you know how to do it. Marmola Tablets, especially prepared so that they need not fear anything you eat. It won't make fat. The digestive juices are weak. What they should do is give you good, strong, active blood, bone and tissue and serve to replenish the waste nervous organism of man. Marmola Tablets go into the stomach just like food. They mix with the digestive juices and at once digest that meal as it should be digested. They take off the fat where it shows the most and in a few days you will see the change yourself. Thousands of our best men and women have used them successfully. They are sold at every first-class drug store or you may write The Marmola Co., 184 Farmer Building, Detroit, Mich., and enclose the price of a case, 75 cents, and they will send same to you at once.

Casperfeld & Cleveland

Wonderful value. Genuine Elgin Watch, 20 year gold-filled case, closed or open face. Only one to a customer. None to dealers. Solid 14-karat Watches in great variety at attractive prices.
